CAREER OBJECTIVE

Software Engineer and final-year B.E Artificial Intelligence & Machine Learning student with a strong foundation in software engineering, object-oriented programming, data structures, algorithms, and full-stack application development. Experienced in developing end-to-end software applications through academic and personal projects, demonstrating strong problem-solving and analytical skills. Skilled in writing clean, maintainable, and scalable code while building reliable software solutions. Adaptable to new technologies with strong communication, interpersonal, and collaboration skills, eager to contribute effectively in dynamic engineering environments.

EDUCATION

B.E, Artificial Intelligence & Machine Learning

Expected Graduation: 2027

Prathyusha Engineering College - CGPA: 8.2 / 10

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL, C#
- **Frontend:** HTML5, CSS3, React.js
- **Backend:** FastAPI, Flask, REST APIs, JWT Authentication
- **Databases:** MySQL, MongoDB, Pinecone
- **AI/ML & Generative AI:** LangChain, RAG, Hugging Face, OpenAI/Gemini API, NLP
- **Core Competencies:** OOP, Data Structures & Algorithms, DBMS, OS, Computer Networks, SDLC
- **Tools & Platforms:** Git, GitHub, Docker, Postman

EXPERIENCE

Machine Learning Intern - *Femtsoft Technologies*

Jul 2025 – Aug 2025

- Completed a structured internship applying core ML concepts to real-world data problems using Python and Scikit-learn.
- Performed data preprocessing, model building, and evaluation; gained practical understanding of end-to-end ML workflows.

AI/ML Intern - *idthirdeye Technology Solutions opc Pvt Ltd*

Jun 2026 – Jul 2026

- Collected student internship and placement data through a Google Form. Analyzed the data to generate insights using dashboards and visualizations.
- Collected and analyzed student internship and placement data. Created dashboards to identify trends and provide recommendations.
- Designed a Google Form to collect student data and performed data analysis. Developed dashboards and generated meaningful insights.

PROJECTS

SkillBridge AI | Python, Flask, MySQL, Scikit-Learn

Dec 2025

- Analyzes students' resumes and skills using AI.
- Recommends suitable jobs, courses, and interview questions.
- Improves placement readiness with personalized career guidance.

AI SQL Assistant | Python, FastAPI, SQLit, OpenRouter GPT

Jun 2026

- Converts natural language questions into SQL queries using AI.
- Retrieves data from the database and displays the results.
- Provides charts and simple explanations for easy understanding.

Smart Document Verification System | Python, Fast, OpenCV, MySQL

Mar 2026

- Verifies uploaded documents automatically using AI.
- Detects fake or modified documents and validates information.
- Generates a verification report and stores the results securely.

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- NPTEL – The Joy of Computing Using Python
- AWS Skill Builder – Cloud Essentials
- Microsoft – Generative AI and AI Agents
